CARRIER OBJECTIVE

- To leverage my skills in Artificial Intelligence, Machine Learning, Web Development. I aim to build intelligent, user-centric solutions while continuously improving my technical, analytical, and communication skills.
-

EDUCATION

B.Tech in Artificial Intelligence and Machine Learning	GPA: 7.86
Kamala Institute of Technology& Science, JNTUH	
Intermediate-MPC ,Alphores Junior College	96%
SSC , Paramita High School	100%

TECHNICAL SKILLS

- **Programming** : python, Java , HTML ,CSS
 - **Databases**: ·MySQL, MongoDB
 - **Core Skills / Domains**: ML, NLP, Data Analysis, Problem Solving
 - **Office Tools**: ·MS Word, Excel, PowerPoint
-

PROJECTS

3D Live Tracking System

- Developed a real-time 3D tracking system to monitor NSG personnel movements with high precision. Enhanced situational awareness and operational efficiency using advanced mapping and visualization techniques.

College Event Platform

- Designed and developed an engaging, user-friendly website for our college fest Kotozen, showcasing event details, registrations, Focused on responsive design and user experience.

Trading Bot

- Developed an automated crypto trading bot using Python integrated with Binance APIs

Fake Profile Recognition in Social Networking using ML & nlp

- Developed a machine learning model to identify fake profile using text data and user behavior features.
-

INTERNSHIPS

Data Scientist Intern | SRM EXIM (OPC) Pvt. Ltd.

Hyderabad, India

June 2025

- Working on real-world data-driven projects involving data preprocessing, analysis, and AI-based insights generation.
- Applying machine learning models to optimize business decision-making.
- Collaborating with teams to visualize trends and automate reports using Python and analytical tools.

CERTIFICATIONS & ACHIEVEMENTS

• Smart India Hackathon 2024	Dec 2024
------------------------------	-----------------

HOBBIES

- ·Doing canva art
- ·Listening to music
- ·Recreational riding
